

If this proposition takes effect, a popular station in my area, K-LOVE, may be replaced by a less popular, less worthy radio station. K-LOVE provides a positive influence in this area and is an alternative to stations that whose programming may not be suitable for children. If K-LOVE's programming were to be cut back at all, then many people would be without a positive and encouraging radio station to listen to at all. The chances for people to have exposure to the kind of programming offered by K-LOVE are all too few these days. I hope you will not participate in the hampering of K-LOVE's efforts.
